Questions with Responses

1. Will there be an additional rack for storage closet near nurse station?

This location was an example and per the RFP this location is not specifically scheduled to get a CCTV system. Adequate rack space will be provided by RISD at any location a system will be installed.

2. Will there be a requirement for weekend or Afternoon/Night work?

Work hours will be negotiated per location and will dependent on location, time of year and scope of work. Submitters may include labor for non-standard work hours as a line item for consideration.

3. Camera locations by use of space.

Cameras will NOT be placed in 'educational spaces'. This includes classrooms, libraries, therapy rooms (OT/PT), work rooms (copier rooms).

Cameras will NOT be placed where they can view private work areas such as offices.

Cameras **may** be placed in office areas provided the view is of a lobby or common area. An example would be in the receptionist area looking through the glass into the secured lobby. The camera should not have a view of the receptionist's work area or workspace.

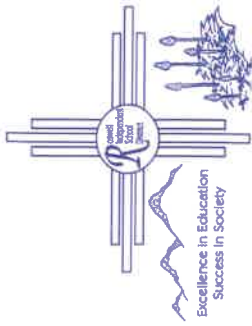

Cameras **may** be placed in Multipurpose rooms such as cafeteria, gymnasium or common areas.
